

Says
What have we heard them say?
What can we imagine them saying?

Social media originated to engage with friends and family.

To strengthen and nourish our bonds

The power of social media is the ability to connect and share information with anyone on earth or with many people simultaneously

Joining the ranks of major social networks like Facebook, YouTube, Twitter, and Instagram.

To provide others with valuable and exciting content

To give others a sense of who are

Create a social media post.

Social media is a computer based technology that facilitates sharing of ideas, thoughts, and knowledge through virtual networks and communities.

Why do people post negatively on social media

They believe that by pointing out your shortcomings

Social networking sites

Social review sites

They can bring you down a notch

Image sharing sites

Video hosting sites

Does
What behavior have we observed?
What can we imagine them doing?

Feels
What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
